

Demo run crash, Intel iris, Ubuntu 20.04
How to configure builds for Windows users
How to run on Windows visual studio 2019 since panda3d isnt supported on mingw g++
Windows10 - Run Demo with 100% GPU usage?
osx compile error
Demo crash on M1 macbook
Can't open the final package
Windows - can't load shaders
:display:gsg:glgsg(warning): Project runs but shaders do not load correctly
sRGB Formula incorrect
Could I get the project file of the model? Like a blender project.
Using it in Three.js
focal length -> focal distance
Be more beginners friendly !
About the materials format.
Runtime SIGBUS:
Support binding on IPv6 address
Relative staticDir behavior changed
Add never expiring cache for static files
Jester with HttpBeast is slow if used with ThreadPool
Memory usage increases per page load
publish docs and link to it in README (doc build failing in nimble directory)
Incorrect static file encoding
Static files don't work with dynamic routes
Missing documentation
Cookies and multiple response headers aren't playing well together
Request.params do not allow duplicate parameters
cannot get request.param if request.body lacks =
patterns in Jester are very slow
Writing a plugin for generating ROBOTS.TXT / sitemap.xml files
can't serve static files more than 10 MB using jester
try expressions doesn't work inside routes
Extended routes that return json doesn't compile
Add option to set amount of threads to use
Adding support for "plugins" to Jester
Unable to set multiple cookies in a single web request
Can't compile with threads enabled using nim-htpauth
Repository and/or organization for Jester promotional site?
Before filters in child routers leak into the parent
Confusion in settings block after routers
